· Description of first aid measures**· After inhalation:** Generally the product does not irritate with inhalation.**· After skin contact:**

Generally the product does not irritate the skin.

In cases of contact with liquified material, frostbite may occur. Immerse frostbite in cool-warm water and seek medical attention.

Wash with soap and water.

If skin irritation occurs, consult a doctor.

· After eye contact:

Not anticipated under normal use.

Rinse opened eye for several minutes under running water. Then consult a physician.

· After swallowing:

Not a normal route of entry.

If swallowed and symptoms occur, consult a doctor.

No further relevant information available.

· Extinguishing media**· Suitable extinguishing agents:**

Use fire fighting measures that suit the environment.

Use water spray to cool fire-exposed containers.

· Special hazards arising from the substance or mixture

Closed containers may explode when exposed to extreme heat.

If incinerated, product will release the following toxic fumes: Oxides of Nitrogen (NOx).

· Advice for firefighters

This gas mixture is not flammable; however, containers, when involved in fire, may rupture or burst in the heat of the fire.

· Protective equipment:

As in any fire, wear self-contained breathing apparatus pressure-demand (NIOSH approved or equivalent), and full protective gear to prevent contact with skin and eyes.
